O Acres of Land for Sale, IN MOORE COUNTY, N. C.

Near the Coal Mines on Deep River. undersigned having qualified as Administrator with the will annexed, on the Estate of L. K. Pratt, dec'd, will sell to the highest bidder on the 15th of May next, on a credit of nine months, a Tract of Land in 784 50 | Moore County, and within one mile of the Coal Mines. on Deep River, and it is probable there is a quantity of coal upon it. This tract of land has no farm per improvements upon in; it contains a quantity or the very

pest long leaf pines. This situation is very desirable for a Turpentine farm. or burning Tar, making Shingles, and getting ton Tim-er, which may be had on this land of any desirable size. here is also a good Mill site near the centre of the track his land sale is worthy the attentio i of the enterprismen of the State. This land, lying in the bend of Dep River, above the Gulf, within one mile of Peter Evine Mills, adjoining the lands of Wm. D. Tyson, Gers Wilcox, and others, the above articles of made will be convenient for boating to merchants down the Deep iver, one or two miles from navigation.

By Herence to Cornelius Tyson, William D. Tyson, or Geore Wilcox, the land will be shown, or any in-JOHN BOROUGHS. Orang County, April 4, 1851.

Important to MILLERS & MILL OWNERS! THE belersigned would respectfully inform those engast in the Milling Business in N. C., that he keeps consulty on hand, and will supply at the shortest notice, than most invaluable article

YOUNG'S IMPROVED PATENT SMUT IND SCREENING MACHINE. The only Mehine of the kind that has stood the test and given satisfactin to the public. It has surplanted every mut Machine offered in the State, more or less which has been ken down to make room for it. The public need lead o imposition, as there are now some 280 Machines runne in N C .; and I wish to offen no other references than he gentlemen who are using them, whose expectations have been more than realized in their performance. It not only thoroughly cleanses the Wheat of smut, busiso purifies it of all other substances, almost to perfectio. It takes up but 4 feet square in the Mill, and reques but little power. It is warranted for five years again breaking or wearing out, and also

to retain its cleanin qualities for that time.

There are a numbr of these Machines through which 100,000 bushels of heat have been cleaned, and they have never been out order one day.
